

**INTERCONNECTION WITH INTEREXCHANGE  
SERVICE PROVIDERS (IXSPs)**
**Item**
**303. Network Announcements for Customers of Disconnected IXSPs with Trunk-side Access**

1. This service provides for a network announcement to be activated when an IXSP with trunk-side access is disconnected from the Company's network or otherwise ceases to provide its end-customers with access to interexchange services. The Company will route all calls destined for the network of the disconnected IXSP to a recorded announcement. The announcement will inform end-customers that the IXSP is no longer in service and direct such end-customers to contact another IXSP to establish service. The announcement will also provide instructions for making interexchange calls using casual calling.

2. The announcement creation fee specified below applies to each IXSP upon the provision of its CARE Profile for the creation of the announcement capability in respect of that IXSP.

3. In addition, each time an IXSP with trunk-side access is disconnected from the Company's network, or otherwise ceases to provide its end-customers with access to interexchange services, the announcement activation charge specified below is assessed to each remaining IXSP having provided to the Company its CARE Profile for that ILEC operating territory, on the date that the announcement is activated.

4. Rate items are described below:

- A. Once-only announcement creation fee (\$);
- B. Announcement activation charge, per occurrence (\$).
