DIGITAL NETWORK SERVICES

Item 301 **DIGITAL NETWORK ACCESS (DNA)**

Service Description

301.1 Digital Network Access provides for the digital transmission of information from the customer's premises to another premises within the Exchange at 1.544 Mbps, or 44.736 C
Mbps, or from the customer's premises to the Rate Centre to connect with other C
network services at speeds of less than 1.544 Mbps, 1.544 Mbps or 44.736 Mbps.

For **Bell** only, transmission at 155 Mbps (OC-3) and 622 Mbps (OC-12) is available between two points in the same Exchange or to connect a customer location to a C
network service at the Wire Centre or Rate Centre. C

For Competitive Canadian Carriers, Wireless Service Providers or Resellers, Bell Canada's Access Services Tariff Item 130 or Bell Aliant General Tariff, CRTC 21491, Item 612 apply, as appropriate.

This Item applies to **Bell** and **Bell Aliant**.

Digital Network Access services at speeds of DS-3 and above are forborne from regulation, pursuant to Telecom Decision CRTC 2007-35, when they are provided in the Wire Centres identified in Item 17. C

DIGITAL NETWORK SERVICES

Item 301 **DIGITAL NETWORK ACCESS (DNA)**

Terms and Conditions 301.2

(a) The terms and conditions identified in Item 300.3 (a) to (e) apply to Digital Network Access. For serving areas in **Newfoundland & Labrador (NL)**, if facilities must be added between the customer location and the serving Wire Centre, additional charges will apply. C

(b) A DS-1 channelizing feature is available whenever the service application requires one which enables a DS-1 access or channel to be connected to DS-0 channels. The use of this feature will result in a link charge, as described in Item 301.3(a), and a service charge as described in Item 301.3(b)2, Note 5, being applied to activate and interconnect unused DS-0 capacity within a DS-1 access or channel. For **Bell Aliant** only, a DS-0 link charge shall not apply for each timeslot the customer opens on the DS-1 access or channel. A service charge to activate the DS-0 timeslot applies as described in Item 303.4(a)2, Note 2.

(c) A DS-3 channelizing feature is available whenever the service application requires one which enables a DS-3 access or channel to be connected to DS-1 channels. The use of this feature will result in a link charge, as described in Item 301.3(b)2, and a service charge as described in Item 301.3(c)3, Note 13, being applied to activate and interconnect unused DS-1 capacity within a DS-3 access or channel. For **Bell Aliant** only, a DS-1 link charge shall not apply for each timeslot the customer opens on the DS-3 access or channel. A service charge to activate the DS-1 timeslot applies as described in 301.3(c)3, Note 13.

(d) An OC-3 channelizing feature is available whenever the service application requires one, which enables an OC-3 access or channel to be connected to DS-3 channels. An OC-12 channelizing feature is available whenever the service application requires one, which enables an OC-12 access or channel to be connected to OC-3 and/or DS-3 channels. The use of these features will result in service charges in Item 301.3(e)2, Note, being applied to activate and interconnect unused DS-3 and/or OC-3 capacity within an OC-3 access or channel or an OC-12 access or channel, as appropriate.

(e) If the customer terminates a contract or a portion of a contract for local DS-1 access service and/or DS-1 link service, DS-3 access service, OC-3 access service or OC-12 access service prior to the expiry date of the contract term, termination charges equal to one half of the remaining charges for such access service for the unexpired part of the contract will be payable in a single payment at the termination of the contract.

Item 301 **DIGITAL NETWORK ACCESS (DNA)**

Terms and Conditions 301.2

(e) If the customer terminates a contract - continued

Termination charges for DS-1 access and link services, DS-3 access, OC-3 access services and OC-12 access services will be reduced or waived if the customer re-contracts for another dedicated access service within the Carrier's operating territory.

1. If the committed revenues under the new contract(s) are equal to or greater than those remaining under the original contract(s), the termination charges for the original contract(s) will be waived.

2. If the committed revenues under the new contract(s) are less than those remaining under the original contract(s), the termination charges for the original contract(s) will be reduced by half the committed revenues under the new contract(s).

The reduction or waiver of termination charges as specified above will apply if the contracted DS-1 Access:

- is reconfigured between one of Digital Private Line, Business Savings Plan and/or Frame Relay. C

- is moved to another address within the installation order interval for each Carrier.

Item 301 **DIGITAL NETWORK ACCESS (DNA)**

Terms and Conditions 301.2

(e) If the customer terminates a contract - continued

3. If the customer migrates from an existing contracted DS-3 service currently tariffed at Special Facility Tariff rates, to this service, the termination charges for the current service will be waived or reduced by one half of the DS-3 service committed revenues.

4. A customer may migrate an existing DS-3 access service currently tariffed at Special Facility Tariff rates, to this service, while continuing the same contractual conditions of contract length and lapsed interval. In this instance, no termination charges apply. This provision is available for a period of nine months from the effective date of the introduction of DS-3 Access. S

(f) For the provision of DS-1, DS-3, OC-3 and OC-12 Accesses, wire centres in the Carriers' territory are categorized according to bands depicting serving areas.

(g) For **Bell** only, the calculation of DS-1 and DS-3 access quantity discounts is subject to the following conditions. All DS-1 and DS-3 accesses must:

- be billed on the same account (Billing Telephone Number (BTN)),
- be part of the same Minimum Contract Period (MCP) commitment (i.e., same agreement and same term), and
- terminate at the same customer premises.

301.3

The customer shall pay the following rates and charges for Digital Network Access:

(a) Low Speed Access

For Bell Canada only, effective 19 March 2024, Low Speed Access, including speeds at DS-0 and 112.0 / 128.0 Kbps, is destandardized except for the interconnection purposes listed below. Existing customers may maintain their existing Low Speed Access however requests for moves, adds or changes to existing Low Speed Access will not be processed. Low Speed Access is not available for new installations, except when used for interconnection pursuant to a Master Agreement for Local Interconnection between the Customer and the Company, or for connection between the Customer's point of presence and the Company's network for the purposes of obtaining any of the Company's interconnection services (toll, local, wireless and transiting services) set out in Telecom Decision CRTC 2008-17, Appendix, Category (e); or for the purposes of connecting to a Central Office co-location space established pursuant to the Company's tariffs. C

The following Access, Link and Intra-exchange Channel rates and charges apply when used with the following services:

- Digital Private Line Solutions Service Extension Access Service (Item 305) for speeds up to DS-0 and 112.0/128.0 Kbps.
- Frame Relay Access at DS-0 and 112.0/128.0 Kbps.
- Other services as identified in the respective Carriers' tariffs.

Note 7: The rates for "first" and "additional" DS-3 accesses apply when the DS-3 accesses originate from the same customer premises. Exceptions to this application are DS-3 accesses used for Access Diversity.

Note 8: Customers located in non-serving areas pay the rates of Band 3 in addition to the expense incurred or Special Facility Tariff rates, whichever apply, to subscribe to DS-3 access.

Note 9: **Bell Aliant** only.

Note 10: **Bell** only.

Note 11: See Table on page 302.6.2 for non-contracted rates.
