Agreement between Bell Canada ("Bell") and Carleton Condominium Corporation #111
(the "Building Owner")

Authorizing Bell to Install and Operate VDSL Telecommunications Equipment and use In-Building Wire At
Building Locations Specified in Schedule "A"

Bell and the Building Owner jointly recognize that, in order to provide tenants and other building occupants with the high quality telecommunications services which such tenants and occupants expect in buildings owned or controlled by the Building Owner, Equipment ("the Equipment") may be required to be installed in the Main Terminal Room ("MTR"), POP or elsewhere in the Buildings, as the case may be, by Bell. Therefore, the Building Owner hereby authorizes Bell to install and maintain the Equipment and to use In-Building Wire under the control and responsibility of the Building Owner in the Buildings to provide telecommunications services (the "Services") to Tenants and other occupants of the Buildings. The addresses of the buildings ("the Buildings") and a list of the Equipment and the In-Building wire and its location in each of the Buildings is provided in Schedule "A" attached hereto.

Notwithstanding the foregoing, the parties hereto acknowledge and agree that this Agreement does not permit any additional Equipment to be installed, operated or maintained, beyond the Equipment specified in Schedule "A", as revised from time to time by mutual agreement.

In the event Bell intends to install additional Equipment in any of the Buildings, Bell shall provide the Building Owner advance notification of any such additional Equipment Bell may require to install in the Building.
